### About the Institution :

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is located in Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. programmes in 3 faculties of Engineering- Computer Science & Engineering, Electronics and Communications Engineering and Artificial Intelligence & Machine Learning.

### About the Department :

The Department of Computer Science and Engineering was established in the year 2009. The department consists of staff and students committed to excellence and success. The department gives exposure to its students not only the regular engineering curriculum but also aspirations of today's corporate world, by inculcating a professional attitude in them.

Since 2009, the department is consistently striving hard to offer a high quality, state-of-the-art education in computer science and engineering at an affordable cost. The department conducts various workshops on Bigdata, Cloud computing, Mobile App development, Advanced Java, Networking, Web Technologies and current trends. We as a team strive hard to take the department to height of success, glory and to achieve our vision.

## DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

### Vision:

To be recognized as an exemplary leader committed to Excellence in education, research and innovation that meet the needs of the global community in computer science and engineering for women who are psychologically strong and have great ethical values.

### Mission:

To produce globally competent graduates who have Adequate skills, highest ethical standards, social responsibility and values with a sense of professionalism.

To be dynamic, innovative and flexible in devising academic programs, structures and mechanisms.

To foster leadership qualities and professional behavior skills to enhance the performance of the graduates.

An ISO 9001:2015 Certified Institution

### **About the Certificate Program:**

**R analytics** is data analytics using R programming language, an open-source language used for statistical computing or graphics. This programming language is often used in statistical analysis and data mining. It can be used for analytics to identify patterns and build practical models.

The training programme would help to provide:

### **TOPICS COVERED:**

Contents of the course would touch upon the following aspects, to achieve the objectives:

- Introduction to R and exploring basics of R Language.
- RStudio, R Packages
- Basic Data Management
- Using SQL statement to manipulate data.
- Data Management Challenge
- Histograms
- Data Distribution and Regression
- Cluster Analysis
- Decision trees

### PROGRAM REPORT

Date: 10.09.2022

**Name of the Event:** A Two Week Certificate Program on “Data Analytics Using R”

**Date:** 24.08.2022 to 09.09.2022

**Resource Person:** Mrs.M.Anitha, Asst. Professor Dept. of CSE

Contact No: 9491514693

Email id:anithameruga.it@gmail.com

**Name of the Coordinator:** Mrs.D.urlamma, Asst. Professor, Dept. of CSE

Contact No: 8790242128

**Number of Students Attended:** 135

**Venue:** New Block Conference Hall, BAPATLA WOMEN'S ENGINEERING COLLEGE

BAPATLA WOMEN'S ENGINEERING COLLEGE, Bapatla Organized A Two Week Certificate Program on “Data Analytics Using R” for B.Tech Students by the Resource Person Mrs. M.Anitha, Data analytics is the process of analyzing raw data in order to draw out meaningful, actionable insights, which are then used to inform and drive smart business decisions. These tools are very useful for the business applications. Totally 135 Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

### Objectives:

- The basics of data analysis and its programming environment.
- How to use R programming for analytical programming.
- Explain the fundamental concepts associated with programming in R including functions, variables, data types, pipes, and vectors.
- How to implement data structure in R.
- R loop functions and debugging tools
- Object-oriented programming concepts in R language.
- Describe the options for generating visualizations in R Programming.
- How to perform error handling in R.
- Writing custom R functions.

### Learning Outcomes:

- Know about the R programming concepts
- Demonstrate how to install and configure RStudio in our PC.
- Apply all OOP concepts in R programming
- Explain the use of data structure and loop functions

The Participants were given Good feedback about the Program. The Management and Dr.G.Srinivasa Rao garu, Principal of BWEC thanked the Resource Pearson and Participants for making the program successful.

## ABOUT THE COLLEGE:

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The college is located in Bapatla, a town with a historic and hoary past, about 75km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programs in 3 disciplines of Electronics and Communication Engineering Artificial Intelligence and Machine Learning, Computer Science & Engineering.

## VISION:

Bapatla Women's Engineering college has been established with forethought to organize the growing needs of higher technical education for women, in order to provide them a competitive edge and a unique niche in the society

We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats

## MISSION:

Our mission is to impart the quality education at par with global standards to the students from all over the India and in particular those from the local and rural areas. We continuously try to maintain high standards so has to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

## ABOUT THE DEPARTMENT:

The ECE department was established in the year 2009 with 60 intakes, now it increases to 120. Department has highly qualified and experienced faculty members provide excellent instruction and supervision to the Students. Department has good state of art laboratories are equipped. It emphasizes teaching and research in the

areas of design, study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems.

## VISION:

To be recognized by the society at large as a full fledged department, offering quality higher education in the Electronics and Communication Engineering field with research focus catering to the needs of the public and staying in tune with the advancing technological revolution and challenging cultural changes.

## MISSION:

- ❖ To provide Quality education in the field of Electronics and Communication Engineering through the learning of ethics to its students

- ❖ To create sound technocrats in professional engineering leading them towards growth and development promoting the academic research & development

- ❖ To showcase adaptability in fields of technical knowledge through the academic infrastructure based on state of the art along with industry based training

- ❖ Promote the establishment of centres of excellence in niche technology areas to nurture the spirit of innovation and creativity among faculty and students

- ❖ Enable students to develop skills to solve complex technological problems of current times and also provide a framework for promoting collaborative and multidisciplinary activities.

## ABOUT THE COURSE:

Biomedical instrumentation is engineering concerned with devices and mechanics used to measure evaluate and treat biological systems. It focuses on using multiple sensors to monitor the physiological characteristics of a human or an animal

## TOPIC COVERED:

- ❖ Introduction to biomedical instrumentation
- ❖ Physiology and transducers Cell and its structure
- ❖ Nervous system
- ❖ Cardiovascular system, respiratory system
- ❖ Electrodes: Limb electrodes, floating electrodes
- ❖ Radiographic and fluoroscopic techniques, X rays

## COURSE OUTCOMES:

The student who successfully completes this course will be able to:

- ❖ Understand the physiology of biomedical system
- ❖ Measure biomedical and physiology information
- ❖ Discuss the applications of electronics in diagnostics and therapeutic area
- ❖ Design and operate bio potential amplifiers
- ❖ Inspect common bio medical signals and distinguish characteristic features
- ❖ Define and discuss bio chemical sensors

## PROGRAM REPORT

**Name of the program:** A Two Week Certificate Program on “**BIOMEDICAL INSTRUMENTATION**”

**Date:** 17-10-2022 to 31-10-2022

**Resource person:** Mrs. B.MahaLakshmi, Asst. Professor of ECE department

**Name of the program coordinator:** Mrs. K.Srilatha, Asst. professor Dept. of ECE

**Number of students Attended:** 118

**Venue:** Conference Hall - New Block

Electronics and Communication Engineering Department of Bapatla Women's Engineering college, Bapatla organized A Two Week certificate program on “**BIOMEDICAL INSTRUMENTATION**” for B.Tech students by Resource person Mrs. B. MahaLakshmi Asst. Professor of ECE department. Totally 118 students were participated in the certificate program.

### **Objectives of the program:**

1. To introduce an fundamentals of transducers as applicable to physiology
2. To explore the human body parameter measurements setups
3. To make the students understand the basic concepts of forensic techniques.
4. To give basic ideas about how multimedia evidences are useful in crime investigation.

### **Outcomes of program:**

The student who successfully completes this course will be able to:

- ❖ Understand the physiology of biomedical system .
- ❖ Measure biomedical and physiological information .
- ❖ Discuss the application of Electronics in diagnostics and therapeutic area .
- ❖ Design and operate bio potential amplifiers.
- ❖ Inspect common biomedical signals and distinguish characteristic features.
- ❖ Define and discuss biochemical sensors.

### About the Institution :

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is located in Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. programmes in 3 faculties of Engineering- Computer Science & Engineering, Electronics and Communications Engineerin and Artificial Intelligence & Machine Learning.

### About the Department :

The Department of Computer Science and Engineering was established in the year 2009. The department consists of staff and students committed to excellence and success. The department gives exposure to its students not only the regular engineering curriculum but also aspirations of today's corporate world, by inculcating a professional attitude in them.

Since 2009, the department is consistently striving hard to offer a high quality, state-of-the-art education in computer science and engineering at an affordable cost. The department conducts various workshops on Bigdata, Cloud computing, Mobile App development, Advanced Java, Networking, Web Technologies and current trends. We as a team strive hard to take the department to height of success, glory and to achieve our vision.

## DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

### Vision:

To be recognized as an exemplary leader committed to Excellence in education, research and innovation that meet the needs of the global community in computer science and engineering for women who are psychologically strong and have great ethical values.

### Mission:

To produce globally competent graduates who have Adequate skills, highest ethical standards, social responsibility and values with a sense of professionalism.

To be dynamic, innovative and flexible in devising academic programs, structures and mechanisms.

To foster leadership qualities and professional behavior skills to enhance the performance of the graduates.

## About the Certificate Program:

**Full stack development** is the end-to-end development of applications. It includes both the front end and back end of an application. The front end is usually accessed by a client, and the back end forms the core of the application where all the business logic is applied.

A stack framework is a software framework that provides a basic structure for web applications. It typically includes a web server, database, and programming language. The web server handles requests from clients while the database stores data.

The training programme would help to provide:

### TOPICS COVERED:

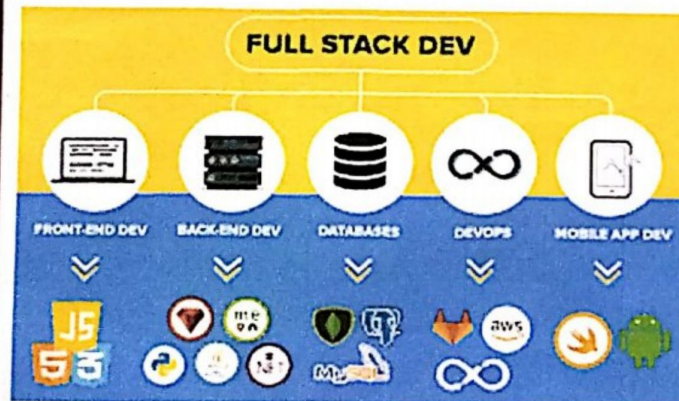

Contents of the course would touch upon the following aspects, to achieve the objectives:

- ✓ Architecture of modern vs traditional web applications.
- ✓ Front-end vs back-end paradigms.
- ✓ Full-stack development overview (stack of different technologies).
- ✓ Design APIs and best practices.
- ✓ Front-end frameworks.
- ✓ Back-end frameworks.

**Number of Students Attended:** 50

**Venue:** N-323, BAPATLA WOMEN'S ENGINEERING COLLEGE

BAPATLA WOMEN'S ENGINEERING COLLEGE, Bapatla Organized A Two Week Certificate Program on “**Full Stack Development**” for B.Tech Students by the Resource Person **Mrs. M. Chaitanya Kumari**, Full Stack Development is a famous technology to build web applications in very efficient & faster manner. Totally **50** Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

## Objectives:

The basic full stack web development course is designed to provide students with a solid foundation in the front-end and back-end web development fundamentals. By the end of the course, students will have a strong understanding of the core concepts and tools required to develop and deploy web applications.

## Learning outcomes:

Upon completion of the basic course, students will be able to:

- Understand the basics of full stack web development
- Develop responsive web pages using HTML and CSS
- Implement client-side scripting using JavaScript
- Build interactive web pages using React JS
- Use jQuery to create web pages
- Develop server-side scripts using PHP and Node JS
- Manage data using MySQL
- Deploy web applications on GitHub
- Understand the best practices for building secure web applications
- Develop real-world web applications using various technologies learned in the course.

The Participants were given Good feedback about the Program. The Management and Dr.G.Srinivasa Rao garu, Principal of BWEC thanked the Resource Pearson and Participants for making the program successful.

## ABOUT THE COLLEGE:

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The college is located in Bapatla, a town with a historic and hoary past, about 75km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programs in 3 disciplines of Electronics and Communication Engineering Artificial Intelligence and Machine Learning, Computer Science & Engineering.

## VISION:

Bapatla Women's Engineering college has been established with forethought to organize the growing needs of higher technical education for women, in order to provide them a competitive edge and a unique niche in the society

We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats

## MISSION:

Our mission is to impart the quality education at par with global standards to the students from all over the India and in particular those from the local and rural areas. We continuously try to maintain high standards so has to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

## ABOUT THE DEPARTMENT:

The ECE department was established in the year 2009 with 60 intakes, now it increases to 120. Department has highly qualified and experienced faculty members provide excellent instruction and supervision to the Students. Department has good state of art laboratories are equipped. It emphasizes teaching and research in the

areas of design, study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems.

## VISION:

To be recognized by the society at large as a full fledged department, offering quality higher education in the Electronics and Communication Engineering field with research focus catering to the needs of the public and staying in tune with the advancing technological revolution and challenging cultural changes.

## MISSION:

- ❖ To provide Quality education in the field of Electronics and Communication Engineering through the learning of ethics to its students

- ❖ To create sound technocrats in professional engineering leading them towards growth and development promoting the academic research & development

- ❖ To showcase adaptability in fields of technical knowledge through the academic infrastructure based on state of the art along with industry based training

- ❖ Promote the establishment of centres of excellence in niche technology areas to nurture the spirit of innovation and creativity among faculty and students

- ❖ Enable students to develop skills to solve complex technological problems of current times and also provide a framework for promoting collaborative and multidisciplinary activities.

## ABOUT THE COURSE:

A Millimeter wave device that generates radio frequency power from an enclosed orbiting electron cloud excited by a radio frequency field when subjected to a strong pulsed magnetic field

## TOPIC COVERED:

- ❖ Introduction to Millimeter Wave Technology
- ❖ Guiding Structures at Millimeter Wave Frequencies
- ❖ Millimeter Wave Antennas
- ❖ Millimeter Wave Components
- ❖ Millimeter Wave Devices
- ❖ Millimeter Wave Propagation
- ❖ Millimeter-wave systems

## COURSE OUTCOMES:

The student who successfully completes this course will be able to:

- ❖ Describe and illustrate the Material Properties of Semiconductors.
- ❖ Sketch and explain the characteristics of Microwave BJTs, HBTs and Tunnel Diodes.
- ❖ Illustrate with the sketch of the structure of Microwave Field Effect Transistors, diagram their characteristics and analyze them.
- ❖ Appraise the principle of operation Transferred Electron Devices (TEDs), schematize their characteristics, assess and summarize their features.
- ❖ Schematize the structure and design Avalanche Transit-Time Devices to observe high frequency response. Schematize their characteristics and prepare an inference.

## PROGRAM REPORT

**Name of the program:** A Two Week Certificate Program on "MILLIMETER WAVE TECHNOLOGY"

**Date:** 21-11-2022 to 5-12-2022

**Resource person:** Mrs. K.Srilatha Asst. Professor of ECE department

**Name of the program coordinator:** Mrs.R,Lavanya, Asst. professor  
Dept. of ECE

**Number of students Attended:** 52

**Venue:** Conference Hall - New Block

Electronics and Communication Engineering Department of Bapatla Women's Engineering college, Bapatla organized A Two Week certificate program on "MILLIMETER WAVE TECHNOLOGY" for B.Tech students by Resource person Mrs. K.Srilatha Asst. Professor of ECE department. Totally 52 students were participated in the certificate program.

### **Objectives of the program:**

- ✓ To understand the Material Properties of Semiconductors.
- ✓ To grasp the principle of operation of Microwave BJTs, HBTs, and Tunnel Diodes and apply the same.
- ✓ To appraise and analyze the characteristics of Microwave Field Effect Transistors.
- ✓ To evaluate the characteristics of Transferred Electron Devices (TEDs).
- ✓ To comprehend the characteristics of Avalanche Transit-Time Devices and create their structures.

### **Outcomes of program:**

The student who successfully completes this course will be able to:

- ❖ Describe and illustrate the Material Properties of Semiconductors.
- ❖ Sketch and explain the characteristics of Microwave BJTs, HBTs and Tunnel Diodes.
- ❖ Illustrate with the sketch of the structure of Microwave Field Effect Transistors, diagram their characteristics and analyze them.
- ❖ Appraise the principle of operation Transferred Electron Devices (TEDs), schematize their characteristics, assess and summarize their features.

## CIRCULAR

This is hereby to inform all the **III/IV B. Tech CSE students**, that the CSE department is organizing a two-week Certification course on “**Ethical Hacking**” by **Mrs. G. Venkateswari**, Assistant Professor of CSE from 20.02.2023 to 07.03.2023. So all the students are hereby informed to give the names on or before 14.02.2023 and utilize this opportunity by attending the classes.

Venue: New Block Conference Hall.

### **About the Institution :**

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is located in Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. programmes in 3 faculties of Engineering- Computer Science & Engineering, Electronics and Communications Engineering and Artificial Intelligence & Machine Learning.

### **About the Department :**

The Department of Computer Science and Engineering was established in the year 2009. The department consists of staff and students committed to excellence and success. The department gives exposure to its students not only the regular engineering curriculum but also aspirations of today's corporate world, by inculcating a professional attitude in them.

Since 2009, the department is consistently striving hard to offer a high quality, state-of-the-art education in computer science and engineering at an affordable cost. The department conducts various workshops on Bigdata, Cloud computing, Mobile App development, Advanced Java, Networking, Web Technologies and current trends. We as a team strive hard to take the department to height of success, glory and to achieve our vision.

## **DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING**

### **Vision:**

To be recognized as an exemplary leader committed to Excellence in education, research and innovation that meet the needs of the global community in computer science and engineering for women who are psychologically strong and have great ethical values.

### **Mission:**

To produce globally competent graduates who have Adequate skills, highest ethical standards, social responsibility and values with a sense of professionalism.

To be dynamic, innovative and flexible in devising academic programs, structures and mechanisms.

To foster leadership qualities and professional behavior skills to enhance the performance of the graduates.

### **About the Certificate Program:**

Ethical hacking is a process of detecting vulnerabilities in an application, system, or organization's infrastructure that an attacker can use to exploit an individual or organization. This process is used to prevent cyber-attacks and security breaches by lawfully hacking into the systems and looking for weak points.

The training programme would help to provide:

### **TOPICS COVERED:**

Contents of the course would touch upon the following aspects, to achieve the objectives:

- Introduction to Ethical Hacking
- Foot Printing and Reconnaissance
- Scanning Networks
- Steganography
- Vulnerability Analysis
- System Hacking
- Malware Threats
- Sniffing
- Data Recovery Tools
- Session Hijacking

### PROGRAM REPORT

Date: 09.03.2023

**Name of the Event:** A Two Week Certificate Program on “Ethical Hacking”

**Date:** 20.02.2023 TO 07.03.2023

**Resource Person:** Mrs. G.Venkateswari, Asst. Professor & HoD, Dept. of CSE

Contact No: 9505516639

Email id:venkateswari37@gmail.com

**Name of the Coordinator:** Mrs.T.Sai Lakshmi, Asst. Professor, Dept. of CSE

Contact No: 9912025065

**Number of Students Attended:** 117

**Venue:** New Block Conference Hall, BAPATLA WOMEN'S ENGINEERING COLLEGE

**BAPATLA WOMEN'S ENGINEERING COLLEGE**, Bapatla Organized A Two Week Certificate Program on “Ethical Hacking” for B.Tech Students by the Resource Person **Mrs. G.Venkateswari**, Ethical Hacking is a process to test and identify vulnerabilities in an organization's system, web etc and implement some security measures to protect data. Totally **117** Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

**Objectives:**

- Understand, perform and secure themselves from various kinds of Ethical Hacking & attacks.
- Understand, perform and secure themselves from various kinds of Email, Social Media, System, Servers & Mobile attacks/hacking.
- Understand, perform and secure themselves from various kinds of Web.
- Application Attacks and will be able to patch them to produce a secure web application.
- Understand Security Architecture of Mobile Platforms etc.

**Learning Outcomes:**

- Know about Ethical Hacking basics.
- Strongly understand about the different types of attacks.
- Provide the security to various Applications on Web.
- Know about mobile platforms and Mobile attacks.

The Students gave Positive feedback about the Program. The Management and Dr.G.Srinivasa Rao garu, Principal of BWEC thanked the Resource Pearson and Students for making the program successful.

## ABOUT THE COLLEGE:

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The college is located in Bapatla, a town with a historic and hoary past, about 75km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programs in 3 disciplines of Electronics and Communication Engineering Artificial Intelligence and Machine Learning, Computer Science & Engineering.

### VISION:

Bapatla Women's Engineering college has been established with forethought to organize the growing needs of higher technical education for women, in order to provide them a competitive edge and a unique niche in the society

We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats

### MISSION:

Our mission is to impart the quality education at par with global standards to the students from all over the India and in particular those from the local and rural areas. We continuously try to maintain high standards so has to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

## ABOUT THE DEPARTMENT:

The ECE department was established in the year 2009 with 60 intakes, now it increases to 120. Department has highly qualified and experienced faculty members provide excellent instruction and supervision to the Students. Department has good state of art laboratories are equipped. It emphasizes teaching and research in the

areas of design, study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems.

### VISION:

To be recognized by the society at large as a full fledged department, offering quality higher education in the Electronics and Communication Engineering field with research focus catering to the needs of the public and staying in tune with the advancing technological revolution and challenging cultural changes.

### MISSION:

- ❖ To provide Quality education in the field of Electronics and Communication Engineering through the learning of ethics to its students

- ❖ To create sound technocrats in professional engineering leading them towards growth and development promoting the academic research & development

- ❖ To showcase adaptability in fields of technical knowledge through the academic infrastructure based on state of the art along with industry based training

- ❖ Promote the establishment of centres of excellence in niche technology areas to nurture the spirit of innovation and creativity among faculty and students

- ❖ Enable students to develop skills to solve complex technological problems of current times and also provide a framework for promoting collaborative and multidisciplinary activities.

### ABOUT THE COURSE:

This program provides basic ability to analyze algorithms and master a variety of advanced abstract data types ,ability to apply and implement learned algorithm design techniques and data structure solved problems

## TOPIC COVERED:

- ❖ Algorithms ,performance analysis.
- ❖ Stack and queue ADT's
- ❖ Linear and binary search methods
- ❖ Ordinary and binary trees terminology
- ❖ Binary search tree

## COURSE OUTCOMES:

The student who successfully completes this course will be able to:

- ❖ Implement List ADTs and their operations.
- ❖ Develop programs for sorting.
- ❖ Develop programs for implementing trees and their traversal operations.
- ❖ Implement graph traversal algorithms.
- ❖ Apply algorithm design techniques.
- ❖ Design and analyze the time and space efficiency of the data structure
- ❖ To identify the appropriate data structure for given problem.

## Prerequisites Required From The Students:

- ❖ Basic knowledge of Electronic Devices & internet.
- ❖ Every registered batch students should carry their own mobile phones with fully charged and also a pendrive with atleast 8GB capacity.
- ❖ Your Laptop / Desktop should have a configuration of atleast i5 processor and 4GB RAM.

## PROGRAM REPORT

**Name of the program:** A Two Week Certificate Program on “ADVANCED DATA STRUCTURES”

**Date:** 13-03-2023 TO 27-03-2023

**Resource person:** Mrs.B.Siva kumari Asst. Professor of ECE department

**Name of the program coordinator:** Mrs.A.V.Muthyalamma Asst. professor  
Dept. of ECE

**Number of students Attended:** 109

**Venue:** Conference Hall - New Block

Electronics and Communication Engineering Department of Bapatla Women's Engineering college, Bapatla organized A Two Week certificate program on “ADVANCED DATA STRUCTURES” for B.Tech students by Resource person Mrs.B.Siva kumari. Totally 109 students were participated in the certificate program.

### **Objectives of the program:**

1. Understand and apply linear data structures-List, Stack and Queue.
2. Understand the graph algorithms.
3. Learn different algorithms analysis techniques.
4. Apply data structures and algorithms in real time applications .
5. Able to analyze the efficiency of algorithm.

### **Outcomes of program:**

The student who successfully completes this course will be able to:

- ❖ Implement List ADTs and their operations.
- ❖ Develop programs for sorting.
- ❖ Develop programs for implementing trees and their traversal operations.
- ❖ Implement graph traversal algorithms.
- ❖ Apply algorithm design techniques(ADT).
- ❖ Design and analyze the time and space efficiency of the data structure.
- ❖ Identity the appropriate data structure for given problem.

## CIRCULAR

This is hereby to inform all the **IV/IV B. Tech CSE students**, that the CSE department is organizing a two-week Certification course on “**Deep Learning Techniques using Tensor Flow**” by **Mrs. B. Haritha**, Assistant Professor of CSE from 17.04.2023 to 03.05.2023. So all the students are hereby informed to give the names on or before 11.04.2023 and utilize this opportunity by attending the classes.

Venue: New Block Conference Hall.

### ABOUT THE INSTITUTION :

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is located in Bapatla, a town with a historic and hoary past, about 75 KM. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. programmes in 3 faculties of Engineering- Computer Science & Engineering, Electronics and Communications Engineering and Artificial Intelligence & Machine Learning.

### ABOUT THE DEPARTMENT :

The Department of Computer Science and Engineering was established in the year 2009. The department consists of staff and students committed to excellence and success. The department gives exposure to its students not only the regular engineering curriculum but also aspirations of today's corporate world, by inculcating a professional attitude in them.

Since 2009, the department is consistently striving hard to offer a high quality, state-of-the-art education in Computer Science and Engineering at an affordable cost. The department conducts various workshops on Bigdata, Cloud computing, Mobile App development, Advanced Java, Networking, Web Technologies and current trends. We as a team strive hard to take the department to height of success, glory and to achieve our vision.

## DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

### Vision:

To be recognized as an exemplary leader committed to Excellence in education, research and innovation that meet the needs of the global community in computer science and engineering for women who are psychologically strong and have great ethical values.

### Mission:

To produce globally competent graduates who have Adequate skills, highest ethical standards, social responsibility and values with a sense of professionalism.

To be dynamic, innovative and flexible in devising academic programs, structures and mechanisms.

To foster leadership qualities and professional behavior skills to enhance the performance of the graduates.

### **About the Certificate Program:**

Deep Learning is a machine learning technique that teaches computers to do what comes naturally to humans: learn by example. Deep learning is a key technology behind driverless cars, enabling them to recognize a stop sign, or to distinguish a pedestrian from a lamppost.

TensorFlow offers multiple data tools to help you consolidate, clean and preprocess data at scale: Standard datasets for initial training and validation. Highly scalable data pipelines for loading data. Preprocessing layers for common input transformations.

The training programme would help to provide:

### **TOPICS COVERED:**

Contents of the course would touch upon the following aspects, to achieve the objectives:

- Introduction to Deep learning & Neural Networks.
- Installation of TensorFlow.
- How to Load a dataset.
- Build a Machine learning model.
- Detecting Spam using TensorFlow.
- Image Classification and Optical character recognition using TensorFlow.
- Object detection and Face recognition using TensorFlow.

**Number of Students Attended:** 112

**Venue:** New Block Conference Hall, BAPATLA WOMEN'S ENGINEERING COLLEGE

BAPATLA WOMEN'S ENGINEERING COLLEGE, Bapatla Organized A Two Week Certificate Program on “Deep Learning Techniques Using Tensor flow” for B.Tech Students by the Resource Person Mrs.B.Haritha Tensor Flow is a free and open-source software library for machine learning and artificial intelligence. It can be used across a range of tasks but has a particular focus on training and inference of deep neural Networks. Totally 112 Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

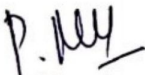

### Objectives:

- Explaining the major concepts and terminology used in deep learning.
- Understand the context of neural networks.
- Performing data preprocessing and exploratory analysis to prepare data for modeling.
- Strong understanding of TensorFlow.
- Installation of Tensorflow.
- Understand various libraries used in Deep Learning.
- Load datasets from different platforms.
- Build machine learning models.
- Building and evaluating deep learning regression models using TensorFlow's Sequential and Functional APIs in Keras.
- Build deep learning models like object recognition, face recognition, and image recognition.

### Learning Outcomes:

- Students will gain the knowledge on Deep Learning & Neural Networks Concepts.
- Best use of Tensorflow Libraries.
- To know about dataset Repositories.
- Loading of Different Datasets from Different datasets Repositories.
- Create machine learning models.
- Create Deep Learning models with minimum Noise.
- Usage of different packages.

The course is very useful to students and their feedback is positive. The Management and Dr. G.Srinivasa Rao garu, Principal of BWEC thanked the Resource Pearson and Participants for making the program successful.
