

# Bapatla Women's Engineering College

BAPATLA-522101.Bapatla (Dist), A.P.

(Sponsored by The Bapatla Education Society)

Approved by AICTE-NewDelhi, Affiliated to Acharya Nagarjuna University

An ISO 9001:2015 Certified Institution

---

## ERP DOCUMENT

An efficient Enterprise Resource Planning System (ERP) is an essential part of any organization to validate all its processes in a single common window. Managing student registrations, records, and grading are important functions of any Institution. Manual systems require spreading the tasks among different departments, which may results in the hustle environment or documents may be missed. So we need the right student record system to maintain documents in an elegant fashion. CAMU is online Enterprise Resource Planning (ERP) software which acts as a strong Learning Management System (LMS). For teaching and learning CAMU facilitates for registration of course under Choice Based Credit System (CBCS), allocation of courses to the faculty members, student attendance, internal assessment, assignment, quiz, discussion forum, End-semester assessment, and conversion of marks to grades and declaration of results. Faculty members, students and parents also have provision to view the academic credentials of a student. Camu's Student Information System helps us to store, retrieve, manage, monitor, and analyze student data, with efficiency and privacy. Parents/Students have access to the Student's Digital Record in their My Camu Application. Attendance, Homework, Teaching Plans & Content, Timetable, Messages, Examination Schedules, Report cards, Feedback, Billing and Enrolment, Alert messages such as General Announcements and Assignment Notifications are available in Web Application and Android Mobile App

### MY CAMU SIGN UP:

Open **MyCamu** by entering the URL: ' www.mycamu.com'. If the student is accessing for first time, click on the Signup option and Students need to fill up the following fields the below pop up Window

1. Name
2. Email ID
3. Camu PIN (can be accessed from Students profile in Camu portal)
4. Password (Students will set their default password)
5. Click on Register to register by themselves.

### Upload Teaching Content:

1. Click on Academic Plan -> Teaching Content  to open the teachingcontent screen
2. Fill in the search criteria or choose the class by clicking Change Class and click

. The list of subjects for the standard (or) semester is displayed

3. Click on  and select the Excel File with the teaching content as per the template.
4. Click on the arrow in front of the subject to view the chapters

5. Edit the teaching content to add video's, files and any other supporting material as attachments
6. Click on  to publish the content to the students

### Creating Lesson Plan by CAMU:

1. Click on Academic Plan -> Teaching Plan to open the teaching plan screen
2. Fill in the search criteria and click **Find Schedule Plan**. The timetable periods and the list of chapter/subchapters are displayed
3. Select a timetable period and click on  **Assign** next to a subchapter to assign the subchapter to the selected timetable period
4. Click on  in the timetable period to un-assign the subchapter
5. Repeat the process until all the chapters are assigned. For each sub-chapter the system will display the duration and the assigned time. The user must ensure that the assigned time is equal to or more than the duration.
6. CAMU also allows us to create a Time Table
