## REPORT ON GREEN CAMPUS INITIATIVES

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

Greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, purchase of environment friendly supplies and effective recycling program. Institute has to work out the time bound strategies to implement green campus initiatives. These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus

### Major green campus initiatives in BWEC:

- Clean India
- Say 'No' to plastic
- Clean & green campus
- Plantation drive
- Plants Distributions

4	Number of participants	40
5	Description	Our students elicit the importance of environment through slogans orally and display the placards. We can't imagine the world without water in coming days. So we have to know the importance of water and save the water for future generation. We can't survive without plants. Natural resources are very important. If we use more plastic then it will leads to human death, so bane the plastic and save the life.
