BAPATLA WOMEN'S ENGINEERING COLLEGE, Bapatla Organized A Two Week Certificate Program on “Web Development Using Bootstrap & Angular JS” for B.Tech Students by the Resource Person Mrs.T. Sai Lakshmi, Angular JS is a completely structural Framework for all dynamic web Application Development.it is a purely a client-side Application and BootStrap is a Web design Software. By using the Angular JS and BootStrap students can easily Develop & design web applications. Totally 112 Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

Objectives:

- The main objective of Angular JS is to reduce the code to build user interface applications
- Create single page web applications using the MVC pattern of Angular JS
- Understand the programming model provided by the Angular JS framework
- Define Angular controllers and directives
- Control Angular data bindings
- Implement Responsive Web Applications with Angular JS and Bootstrap
- To restore data from back-end server and manipulate it easily.

Learning Outcomes:

- Understand the concept of web applications, Angular JS.
- Able to develop several web Applications.
- Easily back up the data from server.

The Management and Dr.G.Vijaya garu, Principal of BWEC thanked the Resource Pearson and Participants for making the program successful.

BAPATLA WOMEN'S ENGINEERING COLLEGE, Bapatla Organized A Two Week Certificate Program on “.Net Frame Work Using C#” for B.Tech Students by the Resource Person Mrs. G.Venkateswari, The .NET Framework is a software development framework that provides a runtime environment and a set of libraries and tools for building and running applications on Windows operating systems. The framework includes a variety of programming languages, including C#, and supports a range of application types, including desktop, web, mobile, and gaming applications. Totally 118 Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

Objectives:

- To learn about basic features of ASP.NET and its controls
- To create an ASP.NET application using standard .NET Controls
- To learn about connecting data sources using ADO.NET and managing them.

Learning Outcomes:

- Understand the concept of .Net Framework and C# language fundamentals.
- Evaluate C# OOPs concept and the .NET framework namespace contents.
- Develop the console and GUI applications using C# .Net
- Understanding of c# assembly, thread, app domain, serialization and Remoting concept
- Set up various navigation techniques for integrating web pages using ASP.NET Controls within the site. Create the dynamic web page using ASP.NET Controls which interact with databases.
- Create database driven ASP.NET web applications and web services

Electronics and Communication Engineering Department of Bapatla Women's Engineering college, Bapatla organized A Two Week certificate program on "SMART SENSORS" for B,Tech students by Resource person Mrs. P.Pratyusha Asst. Prof of ECE department. Totally 52 students were participated in the certificate program.

Objectives of the program:

1. To make students familiar with the constructions and working principle of different types of sensors and transducers.
2. To know the various stimuli that is to be measured in real life instrumentation.
3. To be aware of the various sensors available for measurement and control applications.

Outcomes of program:

The student who successfully completes this course will be able to:

- ❖ Use concepts in common methods for converting a physical parameter into an electrical quantity
- ❖ Classify and explain with examples of transducers, including those for measurement of temperature, strain, motion, position and light
- ❖ Choose proper sensor comparing different standards and guidelines to make sensitive measurements of physical parameters like pressure, flow, acceleration
- ❖ Predict correctly the expected performance of various sensors
- ❖ Locate different type of sensors used in real life applications and paraphrase their Importance.

Objectives of the program:

1. To understand and implement the basic analog communication techniques
2. To understand and implement the basic digital communication techniques
3. To analyze circuits with the help of theoretical and practical problem solving

Outcomes of program:

The student who successfully completes this course will be able to:

- ❖ Basic working of communication system.
- ❖ Analog Modulation Techniques and their comparative analysis and applications suitability.
- ❖ Process of Modulation and Demodulation.

BAPATLA WOMEN'S ENGINEERING COLLEGE, Bapatla Organized A Two Week Certificate Program on “**Mobile Application Development using Android**” for B.Tech Students by the Resource Person Ms.P.Nava Bhanu, Android is a famous tool for developing mobile applications on Android Devices. By this workshop students gain the knowledge to develop several Mobile Applications. Totally 105 Students are participated in this training Program and their completion of the program they were able to understand the following Objectives and learning outcomes.

Objectives:

- To facilitate students to understand android SDK
- To help students to gain a basic understanding of Android application development
- Creating robust mobile applications and learn how to integrate them with other services
- Creating intuitive, reliable mobile apps using the android services and components
- Create a seamless user interface that works with different mobile screens.

Learning Outcomes:

- Identify various concepts of mobile programming.
- Utilize rapid prototyping techniques to design and develop sophisticated mobile interfaces, Program mobile applications for the Android operating system that use basic and advanced phone features.
- Deploy applications to the Android marketplace for distribution
- Will able to write simple GUI applications.
- Use built-in widgets and components, work with the database to store data locally, and much more.

The course is very valuable to students and their feedback is good. The Management and Dr.G.Vijayagaru, Principal of BWEC thanked the Resource Pearson and Participants for making the program successful.

Totally 74 students were participated in the certificate program.

Objectives of the program:

1. To understand basics of cyber security and Cryptography
2. To be able to secure a message over insecure channel by various means.
3. To learn about how to maintain the Confidentiality, Integrity and Availability of a data.
4. To understand various protocols for network security to protect against the threats in the networks

Outcomes of program:

The student who successfully completes this program will be able to:

- ❖ Analyze and design classical encryption techniques and block ciphers.
- ❖ Understand and analyze data encryption standard.
- ❖ Understand and analyze public-key cryptography, RSA and other public-key Crypto systems such as Diffie-Hellman Key Exchange, ElGamal Cryptosystem, etc.
- ❖ Understand key management and distribution schemes and design User Authentication Protocols.
- ❖ Analyze and design hash and MAC algorithms, and digital signatures.
