Bapatla Women's Engineering College established in the year 2009, exclusively for women with the approval of government of Andhra Pradesh AICTE and affiliated to Acharya Nagarjuna University, Guntur. The college started its journey with the vision of "Upliftment of the status of women through quality education" and has since committed itself to provide education at an affordable cost to the girls and women in various technical courses, encompassing the facilities of the state-of-art laboratories.

BAPATLA WOMEN'S ENGINEERING COLLEGE

The Internet of Things (IoT) refers to the network of interconnected physical devices, vehicles, buildings, and other objects embedded with sensors, actuators, software, and network connectivity. These devices collect and exchange data, creating an ecosystem where the physical world is integrated with the digital world. The primary goal of IoT is to enable these devices to communicate, share information, and make intelligent decisions, often without direct human intervention. By the end of the sessions, they were likely equipped with valuable knowledge and insights into IoT, which would be beneficial for their future career prospects.
