

### About the College

Bapatla Women's Engineering College established in the year 2009, exclusively for women with the approval of government of Andhra Pradesh AICTE and affiliated to Acharya Nagarjuna University, Guntur. The college started its journey with the vision of "Upliftment of the status of women through quality education" and has since committed itself to provide education at an affordable cost to the girls and women in various technical courses, encompassing the facilities of the state-of-art laboratories. The college stands as an inspiration of knowledge for the future women leaders of the nation.

### Vision

BWEC has been established with forethought to organize the growing needs of higher technical education for WOMEN, in order to provide them a competitive edge and a unique niche in the society. We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats.

### Mission

M1. Our mission is to impart the quality education on par with global standards to the students from all over India and in particular those from local and rural areas.

M2. We continuously try to maintain high standards so as to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

### About the Department

The Department of Electronics and Communication Engineering was established in the year 2009. The department has a number of well-equipped laboratories and provides extent facilities for learning. The department periodically conducts workshops, seminars for both staff and students. The existing department is having state-of-the-art laboratories to gain good knowledge in the field of Electronics, Communication, Microwave, VLSI, DSP, Image Processing, and Micro Processors & Micro Controllers.

### Vision

To produce highly professional and socially responsible women engineers through world class quality technical education and research to meet industry needs in the field of Electronics and Communication Engineering.

### Mission

M1. To inculcate quality education for women through innovative learning practices with the use of modern tools.

M2. To impart professional ethics and moral values through co-curricular and Extra-curricular activities as individual and team member.

M3. Empowering students through industrial trainings/on-job training in collaboration with industries with-a-view to life-long learning.

### About the Program

ISO and NAAC auditing becomes vital and meeting their demands has become an essential for an institution. This program aims to enhance these knowledge for administrative staff as they are handling most part of the administration datas.

## A ONE DAY ADMINISTRATIVE TRAINING PROGRAM on

"EQUIPPING THE ADMINISTRATIVE STAFF WITH THE KNOWLEDGE OF ISO AND NAAC AUDITING"

17-03-2023

Organized by

DEPARTMENT OF ELECTRONICS  
AND

## **PROGRAM REPORT**

A one day Administrative Training Program on “EQUIPPING THE ADMINISTRATIVE STAFF WITH THE KNOWLEDGE OF ISO AND NAAC AUDITING” on 17-03-2023 at N-101, New Block has been successfully completed by the Department of Electronics and Communication Engineering, Bapatla Women's Engineering College.

The following member has been invited as the Resource Persons for the program

Mrs.G.Divya

Assistant Professor,

Dept of ECE,BWEC

**Convenor:** Mrs.A.V.Muthyalamma,Assistant Professor, Department of ECE

The Resource Persons have shared his knowledge about how to handle the auditing of ISO and NAAC.A total of 9 faculty have been participated in the program.

## **OBJECTIVES OF THE PROGRAM**

- 1.To introduce the documentation for ISO and NAAC auditing
- 2.To incorporate the ideas to the Administrative staffs for smart handling the auditing
- 3.To present the ideas how to support the other department people to manage their auditing files

## **OUTCOMES OF THE PROGRAM**

- Administrative staffs will be equipped well with the knowledge of nook and corner about both ISO and NAAC auditing.
- They understood which data to be stored and the manner in which it is to be stored.They are informed with the other department details necessary for the office managed files.

## **PROGRAM REPORT**

A one week Faculty Development Program on “EFFECT OF COVID-19 ON EMPLOYMENT” from 20-02-2023 to 24-02-2023 at N-302, New Block has been successfully completed by the Department of Electronics and Communication Engineering, Bapatla Women's Engineering College.

The following members are invited as the Resource Persons for the program:

1. Mr. L.Naga Srinivasu, Assistant Professor ,Dept. of ECE, Dhanekula Institute of Engineering & Technology
2. Mrs.Sk.Shameera, Assistant Professor, Dept. of ECE,BWEC

**Convenor:** Mrs.B.Mahalakshmi, Asst.Professor ,ECE Dept.

The Eminent Resource Persons have expressed their views about the impact of COVID-19 on employment in various sectors. The participants gained knowledge about how to cope with the changes happened due to pandemic. A total of 56 faculty participated in the program.

### **OBJECTIVES OF THE PROGRAM**

- 1.To give the statistical data about the impact of Covid-19 on various sector
- 2.To give the alternative opportunities to meet the economic changes
- 3.To give idea about the impact of Pandemic on Rural and Urban areas

### **OUTCOMES OF THE PROGRAM**

- The participants understood the Recovery after national lockdown is uneven in case of females and in rural areas.
- Program created an awareness about various alternatives in the economic sector.
- They understood the importance of agriculture and its impact on health which indirectly contributes to the Economic Sector .

The college stands as an inspiration of knowledge for the future women leaders of the nation.

### Scope of the Program

The main scope of the program is to introduce the participants with the basic knowledge about verification and physical design. They will learn about creating the layout of the IC, and VLSI verification as the process of checking the functions of IC and they gain knowledge about how to place and route transistors, interconnects, and other components on the substrate to create a functional IC.

### Objectives of the program.

1. To discuss the ideas about basic design and verification methodologies with the participants
2. To give them an idea about floor planning, Timing analysis ,placement and routing
3. To provide various low power design methodologies
4. To give them various research area in physical design and verification domain

## ABOUT THE COLLEGE

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The college is located in Bapatla, a town with a historic and hoary past, about 75km. south of Vijayawada on Chennai- Vijayawada rail route. The college offers B.Tech. Programs in 3 disciplines of Electrical and Electronics Engineering, Computer Science & Engineering, Electronics and Communication Engineering.

## VISION

Bapatla Women's Engineering college has been established with forethought to organize the growing needs of higher technical education for women, in order to provide them a competitive edge and a unique niche in the society. We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats.

## MISSION

**M1:** Our mission is to impart the quality education at par with global standards to the students from all over the India and in particular those from the local and rural areas.

**M2:** We continuously try to maintain high standards so as to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

## ABOUT THE DEPARTMENT

The ECE department was established in the year 2009 with 60 intakes, now it increases to 120. Department has highly qualified and experienced faculty members provide excellent instruction and supervision to the Students. Department has good state of art laboratories are equipped. It emphasizes teaching and research in the areas of design, study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems.

## ABOUT THE PROGRAM

Office management involves the planning, design, implementation of work in an organization and its offices. This includes creating focused work environment, and guiding and coordinating the activities of office personnel to achieve business goals. These activities are evaluated and adjusted to improve and maintain efficiency, effectiveness, and productivity.

The one day training program is about the office management for the non-teaching and administrative staff of this college. Office management is used within various fields, although there are many similarities across the board. Each office management job aspect that sets them apart from the rest.

The objective of this training program is to offer economical, accurate, speedy and timely most efficient clerical services to all the executive departments.

**PROGRAM REPORT**

**Name of the program:** A One-day Administrative Training Program on "OFFICE MANAGEMENT"

**Organized By:** Department of Electronics and Communication Engineering

**Date(s):** 7/10/2021

**Resource Persons:** Mrs. G. Kalyani  
Assistant Professor,  
Department of Electronics and Communication Engineering,  
Bapatla Women's Engineering College, Bapatla

**Objective:**

The objective of this training program is to offer economical, accurate, speedy and timely most efficient clerical services to all the executive departments.

**About the Training Program:**

The Administrative Training program is organized with a vision to enhance the fundamental and practical aspects of planning, organizing, coordinating, staffing, office personal administration and public relations those play vital role in making the roots of office administration stronger. This program is about "OFFICE MANAGEMENT" 7<sup>th</sup> October, 2021 was conducted in association with Department of Electronics and Communication Engineering, BAPATLA WOMEN'S ENGINEERING COLLEGE, BAPATLA.

**Outcomes:**

- Non-teaching staff members enriched their knowledge on the basics of Office management to provide office administrators, assistants, administrative supervisors and staff, executive secretaries, personal assistants, records management officers, and office managers within the office environment, who want to build on their skills and knowledge.
- This program aimed at providing comprehensive coverage of functional aspects of office administration such as good accounting, bookkeeping skills and strong organizing skills to ensure the office operations work efficiently.

**Total Number of participants: 10**

**Program Photos:**

It emphasizes teaching and research in the areas of design, study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems.

## VISION

To be recognized by the society at large as a full fledged department, offering quality higher education in the Electronic and communication Engineering field with research focus catering to the needs of the public and staying in tune with the advancing technological revolution and challenging cultural change.

## MISSION

**M1:** To provide Quality education in the field of Electronics and Communication Engineering through the learning of ethics to its students

**M2:** To create sound technocrats in professional engineering leading them towards growth and development promoting the academic research & development

**M3:** To showcase adaptability in fields of technical knowledge through the academic infrastructure based on state of the art along with industry based training

**M4:** Enable students to develop skills to solve complex technological problems of current times and also provide a framework, for promoting collaborative and multidisciplinary activities.

## CHIEF PATRONS

**Sri. Manam Nageswara Rao**

Secretary, Bapatla Educational Society

**Sri. Kommineni Hari Padma Prasad**

Joint Secretary, Bapatla Education Society

**Sri. Talluri Rama Krishna Rao**

Treasurer, Bapatla Education Society

## PATRONS

**Dr. K. GOWRI, Principal**

## CONVENOR

**Mrs. A.V. Muthyalamma, Asst. Professor, ECE Dept.**

## ORGANIZING COMMITTEE

**Mrs. R.V. Jaya Sree, Asst. Professor, ECE Dept.**

**Mrs. L. Suneetha, Asst. Professor, ECE Dept.**

## ADVISORY COMMITTEE

**Mrs. G. Divya, Asst. Professor, ECE Dept.**

**Mrs. K. Srilatha, Asst. Professor, ECE Dept.**

**Mrs. B. Sivakumari, Asst. Professor, ECE Dept.**

**Mrs. G. Krishnaveni, Asst. Professor, ECE Dept.**

## A One Week Faculty Development Program

On

## DEVELOPING PROFESSIONAL ETHICS, VALUES AND COMMUNICATION SKILLS

Scheduled on  
20<sup>th</sup> to 24<sup>th</sup> September

ORGANIZED BY

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

BAPATLA WOMEN'S ENGINEERING COLLEGE

Sponsored by Bapatla Education Society

An ISO 9001:2015 Certified Institution

Approved by AICTE,

Affiliated to Acharya Nagarjuna University,  
Guntur.

## ABOUT FDP

Professional ethics are a set of standards that are used for making decisions in the workplace. Managers use these standards to clarify decision-making when there are gray areas relating to the topic on hand. The use of ethics prevents professionals from taking advantage of other employees or the company. Employees who are ethical build trust and respect amongst others at the company which can lead to more opportunities within the organization.

Values are our guidelines for our success – our paradigm about what is acceptable. Human behavior depends on the characters defining the identity, choosing the values and establishing the beliefs. Human values includes morals, integrity, peaceful life, respecting others, honesty (trustfulness and trustworthiness, caring, kindness, courage, sharing, time management, adjustment (co-operation), self confidence, commitment, spirituality and Service- learning a teaching method which combines community service with academic instruction as it focuses on critical, reflective thinking and civic responsibility.

## OBJECTIVES

1. To orient teachers towards Developing essential attributes like ethics, communication in each course through appropriate tools.
2. To Develop activities related to ethics, values and communication skills
3. To Integrate these attributes in the teaching and administrative learning process so that the program outcome is attained.

## RESOURCE PERSONS

1. Dr. Suneel Miriyala, M.Tech, Ph. D  
Associate Professor  
Department of ECE  
Bapatla Engineering College, Bapatla.
2. M. Bhavani, M. Tech,  
Assistant Professor  
Department of ECE  
Bapatla Women's Engineering College, Bapatla.

## TARGETED AUDIENCE

All the teaching and non teaching staff of ENGINEERING COLLEGES.

## VENUE

N-302, New Block,  
Department of ECE,  
BAPATLA WOMEN'S ENGINEERING COLLEGE,  
Karlapalem Road, Bapatla – 522101,  
Guntur District, Andhra Pradesh.

## REGISTRATION FEE

FEES-RS 500/-For each Faculty  
Fee Inclusive of Lunch & Tea

## HOW TO APPLY

Faculty can apply through in person through proper format or can apply on spot directly at 9:00 AM onwards on the event starting day.

“Ethics is the new competitive Environment”

**Date: 28-09-2021**

**PROGRAM REPORT**

**Name of the Program:** A One Week Faculty Development Program on “DEVELOPING PROFESSIONAL ETHICS, VALUES AND COMMUNICATION SKILLS”

**Organized by:** Department of Electronics and Communication Engineering

**Resource persons:** 1. Dr. Suneel Miriyala,

Associate Professor,

Department of Electronics and Communication Engineering,

Bapatla Engineering College, Bapatla.

2. Ms. M. Bhavani

Assistant Professor,

Department of Electronics and Communication Engineering,

Bapatla Women's Engineering College, Bapatla.

**Target Audience:** Teaching and Non-Teaching staff

**Objectives of the Program:**

1. To orient teachers towards Developing essential attributes like ethics, communication in each course through appropriate tools.
2. To Develop activities related to ethics, values and communication skills
3. To Integrate these attributes in the teaching learning process so that the program outcome is attained.

**Outcome of the Program:**

Enhanced competence of participants to design the learner centered activities related to ethics, Values and Communication skills.

**Feedback/suggestions:**

Positive Responses and more such programs are expected

**No. of participants:** 49

## About the Department

The Department of Electronics and Communication Engineering was established in the year 2009. The department has a number of well-equipped laboratories and provides extent facilities for learning. The department periodically conducts workshops, seminars for both staff and students. The existing department is having state-of-the-art laboratories to gain good knowledge in the field of Electronics, Communication, Microwave, VLSI, DSP, Image Processing, and Micro Processors & Micro Controllers.

## Department Vision

To produce highly professional and socially responsible women engineers through world class quality technical education and research to meet industry needs in the field of Electronics and Communication Engineering.

## Department Mission

- To inculcate quality education for women through innovative learning practices with the use of modern tools.
- To impart professional ethics and moral values through co-curricular and Extra-curricular activities as individual and team member.
- Empowering students through industrial trainings/on-job training in collaboration with industries with-a-view to life-long learning.

## FDP Organizing Committee

Sri M. Nageswara Rao, Secretary, Bapatla Education Society  
Sri P. Bhavanarayana Chowdary, Joint Secretary &  
Correspondent  
Dr. K. Gowri, Principal In-charge, BWEC

## Registration Details

Free Registration and e-Certificate will be issued to all the participants.

Registration Link: <https://forms.gle/mwzzUPnqup593mqd7>

## About the College

Bapatla Women's Engineering College established in the year 2009, exclusively for women with the approval of government of Andhra Pradesh AICTE and affiliated to Acharya Nagarjuna University, Guntur. The college started its journey with the vision of "Upliftment of the status of women through quality education" and has since committed itself to provide education at an affordable cost to the girls and women in various technical courses, encompassing the facilities of the state-of-art laboratories. The college stands as an inspiration of knowledge for the future women leaders of the nation.

## College Vision

BWEC has been established with forethought to organize the growing needs of higher technical education for WOMEN, in order to provide them a competitive edge and a unique niche in the society. We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats.

## College Mission

Our mission is to impart the quality education on par with global standards to the students from all over India and in particular those from local and rural areas. We continuously try to maintain high standards so as to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

**Dr. Vineeth Palliyembil**  
Asst. Prof, Amrita Vishwa  
Vidhyapeetham, Coimbatore  
**Topic: Performance Analysis of  
Optical Wireless Communication  
Systems**  
**Schedule: 10-07-2021**  
**10:00 – 11:00am Forenoon**

Dr. Vineeth Palliyembil received his B.Tech degree in ECE from NIT, Calicut, Kerala and M.Tech degree in communication systems from NIT, Tiruchirappalli. He also received his PhD degree in Free space optical Communication from NIT, Tiruchirappalli. His research interests include Optical, Wireless Communication, Free Space Optical Communication & Wireless Communication.

**Dr. Pradeep Narayanan**  
Assistant Professor, Grade – I  
VIT University, Vellore  
**Topic: IOT based health  
monitoring systems**  
**Schedule: 10-07-2021**  
**02:00 – 03:00pm  
Afternoon**

Dr. Pradeep Narayanan received his B.Tech degree in ECE and M.Tech degree in Nano Science & Technology from Anna University. He received his PhD degree in Biomedical Micro Electro Mechanical Systems from NIT, Tiruchirappalli. His research interests include Nanotechnology, Nanomaterials, Li-ion Batteries, BioMEMS, Micro, and Nanoscale device fabrication, Internet of Things (IoT). Currently, he is working at VIT University and associates with his research group to enhance his IoT vision to serve

**Dr. R. Sanjay**  
Asst Prof, VIT University, Vellore  
**Topic: Low-Noise Low-Power Area-  
Efficient Front-end Circuits for  
Biomedical Sensor Interfaces**  
**Schedule: 09-07-2021**  
**10:00 – 11:00am Forenoon**

Dr. R. Sanjay received his Ph.D. from NIT Tiruchirappalli and M.Tech. in VLSI Design from VIT University, Vellore. He worked as an Application Engineer in India for a period of 3 years. Presently, he is working as Assistant Professor in School of Electronics Engineering, Vellore Institute of Technology (VIT) University, Vellore, India. His research interests include the Design of Low Power Analog Front-end circuits for Biomedical applications.

**Dr. Hariharan Subramaniyam**  
Assoc. Prof, VIT University, Vellore  
**Topic: Orthogonal Time Frequency  
Space (OTFS) Modulation**  
**Schedule: 09-07-2021**  
**02:00 – 03:00pm Afternoon**

Dr. Hariharan Subramaniyam received his B.Tech degree in ECE from Salem, Tamilnadu and M.Tech degree in communication systems from Anna University, Chennai. He also received his PhD degree in Wireless Communication and Networking from NIT, Tiruchirappalli. He had industrial experience with AIRCEL and Reliance as Deployment Engineer and Infrastructure Engineer. He also received a Scholarship of CAD \$10,000 in 2011 under *Graduate Students Exchange Program, Canada*. Currently he is working as an Associate Professor in the Dept of ECE, VIT University, Vellore.

## Resource Persons

**Dr. Pravaranjan Patra**  
Principal Engineer, Global Foundaries  
**Topic: Analog VLSI**  
**Schedule: 08-07-2021**  
**10:30 – 11:30am Forenoon**

Dr. Pravaranjan Patra completed his B.Tech degree in Electronics & Telecommunication Engineering from Odisha and Masters degree in Analog VLSI from NIT Tiruchirappalli. He also received Ph.D degree from IIT Hyderabad in the stream of VLSI. He has publications in reputed International Journals and Conferences. Currently he is working as a principal engineer at Global Foundaries, Hyderabad, India.

**Dr. Surya Prakash Singh**  
Asst. Prof, IIT, Bhubaneswar  
**Topic: Research Trends in Microwave  
and Millimeter Wave Sensors**  
**Schedule: 08-07-2021**  
**02:00 – 03:00pm Afternoon**

Dr. Surya Prakash received his B.Tech and M.Tech degrees from Uttar Pradesh Technical University and Indian Institute of Technology (Banaras Hindu University) Varanasi, respectively. He received Ph.D degree in Electrical Engineering with specialization in RF and Microwave from Indian Institute of Technology Kanpur. Currently he is working as an Assistant Professor in the department of Electronics and Telecom at International Institute of Information Technology Bhubaneswar. His research interests include Microwave and Millimeter wave sensors for material characterization and imaging, Terahertz spectroscopy and non-destructive testing of materials. Terahertz imaging techniques for biomedical applications, Efficient guiding mediums at terahertz frequency, Frequency selective structures

## PROGRAM REPORT

**Name of the program:** A Three days Online FDP on "RESEARCH TRENDS IN VLSI, COMMUNICATIONS & SIGNAL PROCESSING"

**Organized By:** Department of Electronics and Communication Engineering

**Date(s):** 08/07/2021 to 10/07/2021

**Resource Persons:**

1. Dr. Pravaranjan Patra, Principal Engineer, Global Foundaries
2. Dr. R. Sanjay Asst Prof, VIT University, Vellore
3. Dr. Vineeth Palliyembil Asst. Prof, Amrita Vishwa Vidhyapeetham, Coimbatore
4. Dr. Pradeep Narayanan Assistant Professor, Grade – I VIT University, Vellore
5. Dr. Hariharan Subramaniyam Assoc. Prof, VIT University, Vellore
6. Dr. Surya Prakash Singh Asst. Prof, IIIT, Bhubaneswar

### **Objectives:**

The objectives of this FDP program is

- To provide theoretical and practical background on most recent developments in field of Communication Systems, Signal Processing and VLSI design to the participants.
- To aim in bringing academicians from institute of repute to provide insights through their talks and in depth discussions.

**About the FDP:**

The faculty Development program is organized with a vision to enhance the technical and practical aspects of fundamental and advanced subjects of Electronics and Communication Engineering which play vital role in making the roots of education stronger. This program is about "RESEARCH TRENDS IN VLSI, COMMUNICATIONS & SIGNAL PROCESSING" 8<sup>th</sup> -10<sup>th</sup> July, 2021 was conducted in association with Department of Electronics and Communication Engineering, BAPATLA WOMEN'S ENGINEERING COLLEGE, BAPATLA.

**Outcomes:**

- Faculty members enriched their knowledge on the research trends in VLSI, Communications & Signal Processing basics.
- The course aimed at providing comprehensive coverage of most emerging research topics in various fields related to Communication Systems, Signal Processing and VLSI design by using FPGA for Co-Processing as they are not only interrelated but also interdependent.
- Signal processing is a ubiquitous technology which plays the central role in many different areas of applications, e.g., audio, video, image and speech processing, communications, healthcare, automotive safety and surveillance, safety and security of underground pipelines transporting water, oil and natural gas, and many more.
- Typical Signal processing algorithms are computation intensive whereas the VLSI is backbone for fabricating all types of modern Integrated circuits.

**Total Number of participants: 160**

### About the Department

The ECE department was established in the year 2009 with 60 intakes, now it increases to 120. Department has highly qualified and experienced faculty members provide excellent instruction and supervision to the Students. Department has good state of art laboratories are equipped. It emphasizes teaching and research in the areas of design study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems

### Vision

To be recognized by the society at large as a full fledged department, offering quality higher education in the Electronics and Communication Engineering field with research focus catering to the needs of the public and staying in tune with the advancing technological revolution and challenging cultural changes.

### Mission

- M1.To provide Quality education in the field of Electronics and Communication Engineering through the learning of ethics to its students
- M2.To create sound technocrats in professional engineering leading them towards growth and development promoting the academic research & development
- M3.To showcase adaptability in fields of technical knowledge through the academic infrastructure based on state of the art along with industry based training
- M4.Promote the establishment of centres of excellence in niche technology areas to nurture the spirit of innovation and creativity among faculty and students
- M5. Enable students to develop skills to solve complex technological problems of current times and also provide framework for promoting collaborative and multidisciplinary activities.

### About The College

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The college is located in Bapatla, a town with a historic and hoary past, about 75km.south of Vijayawada on Chennai- Vijayawada rail route. The college offers B.Tech. Programs in 3 disciplines of Electrical and Electronics Engineering, Computer Science & Engineering Electronics and Communication Engineering.

### Scope of the Program

The scope of the course is to let the participants be introduced to the fundamental aspects of IoT and how the components are integrated on Arduino with IoT. They will also learn programming Node MCU with Arduino Platform and also know about the Task Synchronization and methods to choose RTOS wireless module(Wifi,Bluetooth,GPR,GSM),NFC/RFID and their integration with Arduino. They will be able to develop an application using Arduino and Raspberry Pi .They will also be able to understand the basics of home automation using Bluetooth.

### Objectives of the program.

1. To make the participants gain knowledge about basics of IoT and embedded system
2. To inculcate them with the basics of RasberryPi and Armware
- 3.To give them idea about various application of IoT

## PROGRAM REPORT

A one week Faculty Development Program on “IoT & Embedded Systems” from 08-12-2020 to 12-12-2020 at Conference Hall, New Block has been successfully completed by the Department of Electronics and Communication Engineering, Bapatla Women's Engineering College.

The following members are invited as the Resource Persons for the program:

- 1.Dr.G.Srinivasa Rao, Professor ,Department of ECE, Narasaraopeta Engineering College,
- 2.Mr.M.PardhaSaradhi, Assistant Professor Department of Mechanical Engineering, Bapatla Engineering college
- 3.Mr.C.Sudhakar Reddy, Embedded Developer, SRC-E solutions, Vijayawada

**Convenor:** Mrs.G.KALYANI,Assistant Professor, Department of ECE

The Eminent Resource Persons have shared their knowledge about various domains in IoT & Embedded Systems. The participants gained knowledge about emerging new research areas in Embedded and IoT . A total of 21 faculty have been participated in the program

### OBJECTIVES OF THE PROGRAM

- 1.To make the participants gain knowledge about basics of IoT and embedded system
- 2.To inculcate them with the basics of RaspberryPi and Armware
3. To give them idea about various application of IoT
- 4.To aware the participants with different research areas in Embedded
- 5.To provide the idea about automation

### OUTCOMES OF THE PROGRAM

- 1.Participants would be familiar with IoT & Embedded systems and applications
- 2.They would be able to work with various sensors and actuators.

## PROGRAM REPORT

A one week Faculty Development Program on "WOMEN HEALTH AS A ROOT FOR SOCIETY EMPOWERMENT" from 23-11-2020 to 27-11-2020 at N-302, New Block has been successfully completed by the Department of Electronics and Communication Engineering, Bapatla Women's Engineering College.

The following members are invited as the Resource Persons for the program:

1.Dr.RAMYA, UPHC CENTER,BAPATLA

2.Mrs.K.KRISHNA KUMARI, ASSISTANT PROFESSOR(S&H) & NSS PROGRAM OFFICER,BWEC

**Convenor:** Mrs.G.Divya, Asst.Prof ,ECE Dept.

The Eminent Resource Persons have expressed the importance of Women Health and all the participants raised various questions in interactive sessions and got awareness about their hormonal and menstrual health.They exhibit happiness for the program being their eye opening session towards their personal health.

### OBJECTIVES OF THE PROGRAM

1. To promote the adoption of healthy active physical lifestyle and educating them about frequent health issues and managing stress both in work as well as personal life.
2. To provide education and training for women to guide those who approach them with accurate and right information
3. To update knowledge and give training to individuals who are already in healthcare and allied services

### OUTCOMES OF THE PROGRAM

- The program created a awareness about the women health and various women related health issues.
- The program introduced ideas about how to manage personal mental and professional life successfully.

Total of 53 Faculty members have participated in the FDP.

### About the College:

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The college is located in Bapatla, a town with a historic and hoary past, about 75km, south of Vijayawada on Chennai- Vijayawada rail route. The college offers B.Tech. Programs in 3 disciplines of Electrical and Electronics Engineering, Computer Science & Engineering, Electronics and Communication Engineering.

### Vision

Bapatla Women's Engineering college has been established with forethought to organize the growing needs of higher technical education for women, in order to provide them a competitive edge and a unique niche in the society. We at BWEC are determined to create a conducive environment with updated technological inputs and latest information to facilitate the students with a pleasant feel in acquiring knowledge and skills required to make them globally competitive technocrats.

### Mission

M1. Our mission is to impart the quality education at par with global standards to the students from all over the India and in particular those from the local and rural areas.

M2. We continuously try to maintain high standards so as to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

### About the Department

The ECE department was established in the year 2009 with 60 intakes, now it increases to 120. Department has highly qualified and experienced faculty members provide excellent instruction and supervision to the Students. Department has good state of art laboratories are equipped. It emphasizes teaching and research in the areas of design, study, and testing of electronic equipment as well as technological concerns pertaining to computer systems, electronics, and other related industrial fields as well as telecommunications systems.

### About the Program

This program aims to create awareness among the administrative staffs about the various new methodologies of effective data storage. As data become more important for any organization, Digitalization of Data becomes an integral part of storage. This program gives an idea about how to back up files for safekeeping and quick recovery in the event of an unexpected computing crash or cyber attack. This program will be an eye opener to consider Data Storage in terms of reliability and how robust the security features tend to be and the cost to implement and maintain the infrastructure. Understanding different data storage solutions and applications can help us to arrive at the choice that is the best fit for our needs.

### About The Institution :

The Bapatla Women's Engineering College, one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 2009 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is located in Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programmes in 3 faculties of Engineering-Computer Science & Engineering, Electronics and Communications and Artificial Intelligence & Machine Learning.

### About the Department:

Department of Computer Science and Engineering has been successfully functioning since 2009. It offers B.Tech (Computer Science and Engineering).

Department of CSE has good interactions and MOUs with leading technology domain Training & Development Industries. It organizes Symposia, Exhibitions, Conferences, Seminars and Workshops for both students and Faculty belonging to various Technical Educational Institutions, Research Scholars of Research Institutes and Industries all over India.

### Scope of the Programme:

The scope of the course is to let the participants be introduced to the fundamental knowledge about the Emerging Technologies. There are several Emerging Technologies that have a significant scope in the future of IT. Here are a few examples Artificial Intelligence and Machine Learning AI&ML are being increasingly used in various industries, including healthcare, finance, transportation, and more.

### Programme Objective:

Recognizing current and emerging disruptive technologies and their potential to impact social conditions, the economy, and daily life. Emerging technologies drive digital transformation initiatives, prompting businesses to modernize their software development strategies to leverage cloud computing, big data analytics, IOT, AI and other digital technologies. The aim of the seminar is to give a wide exposure to the faculty on the methods and tools of this fascinating area of computer science.

It organizes Symposia, Exhibitions, Conferences, Seminars and Workshops for both students and Faculty belonging to various Technical Educational Institutions, Research Scholars of Research Institutes and Industries all over India.

### Scope of the program:

Digital education can provide disabled students with access to specialized tools and resources that can help them overcome learning barriers. For example, students with visual impairments can use screen readers or other assistive technologies to access digital content

### Programme Objective:

Before delving deeper into the objectives of educational technology at the micro and macro levels, let's first take a look at its learning objectives:

- To provide education in the use of Information and Communication Technology or ICT.
- To encourage higher-level thinking and creativity through ICT.
- To deliver students with a learning experience in instructional technology.
- To promote computer-based educational resources.
- To make students aware of **Information Technology**.
- To determine the practical use of technology integration.

### **Objective:**

Digital Learning requires a combination of technology, digital content and instruction. Technology is the mechanism that delivers content. It facilitates how students receive content. It includes Internet access and hardware, which can be any Internet access device from a desktop to a laptop to an iPad to a smartphone. Technology is the tool, not the instruction. Digital content is the high quality academic material which is delivered through technology. It is what students learn. It ranges from new engaging, interactive and adaptive software to classic literature to video lectures to games. It isn't simply a PDF of text or a PowerPoint presentation. Technology may change the role of the teacher but it will never eliminate the need for a teacher. With digital learning, teachers will be able to provide the personalized guidance.

### **Objective:**

Microsoft Excel enables users to format, organize and calculate data in a spreadsheet. By organizing data using software like Excel, data analysts and other users can make information easier to view as data is added or changed. Excel contains a large number of boxes called cells that are ordered in rows and columns. Improved data management using Excel. Excel makes it possible to efficiently store and manage large sets of data so you can track, sort, and filter to find just the information you need at any time. Excel, like other spreadsheets, uses a grid-based structure to hold data within cells.

It organizes Symposia, Exhibitions, Conferences, Seminars and Workshops for both students and Faculty belonging to various Technical Educational Institutions, Research Scholars of Research Institutes and Industries all over India.

### Scope of the programme:

The scope of the course is to let the participants be introduced to the fundamental knowledge about the cloud services and Microsoft azure. Azure is among Microsoft's most prominent and rapidly expanding businesses and many firms focusing on it as the critical area for their business strategy as a Mobile first, cloud first plan. They will also learn Azure App Services, Azure Integration Services, and Azure Data Services.

### Programme Objective:

The course itself is structured around four modules covering topics ranging from basic concepts around Teaching Methodologies and Azure, all the way to understanding Microsoft Azure Solution capabilities and general scope for the introduction.

- Create, configure, scale, and deploy the App Service platform and Develop Azure compute solutions
- Understand Azure Database Services and Azure Storage Account and Understand Azure Cosmos DB
- Implement Azure security, and n-tier architecture also Develop and deploy Azure functions and Logic App
- Interpret Monitoring, troubleshooting, and optimizing Azure solutions and Apply Azure Cognitive Services

### **Objective:**

This course will provide foundational-level knowledge of cloud services and how those services are provided with Microsoft Azure. The course can be taken as an optional first step in learning about cloud services and Microsoft Azure, before taking further Microsoft Azure or Microsoft cloud services courses. The course will cover general cloud computing concepts, as well as general cloud computing models and services, such as Public, Private and Hybrid cloud, and Infrastructure-as-a-Service (IaaS), Platform-as-a Service (PaaS), and Software-as-a-Service (SaaS). It will also cover some core Azure services and solutions, as well as key Azure pillar services concerning security, privacy, compliance, and trust. It will finally cover pricing and support services available with Azure.

Department of Computer Science and Engineering has been successfully functioning since 2009. It offers B.Tech (Computer Science and Engineering).

Department of CSE has good interactions and MOUs with leading technology domain Training & Development Industries. It organizes Symposia, Exhibitions, Conferences, Seminars and Workshops for both students and Faculty belonging to various Technical Educational Institutions, Research Scholars of Research Institutes and Industries all over India.

### Scope of the programme:

Our present teaching learning processes are geared towards old Input-based model rather than new Outcomes-based model. Main objective of this FDP is to educate the young as well as senior faculty members on how to reorient their teaching learning processes to implement OBE. Bloom's Taxonomy was developed to provide a common language for teachers to discuss and exchange learning and assessment methods. In this session explain about the concept of six cognitive level of thinking and how an educator can achieve the goal. This FDP has given a road map to the faculties in developing the framework for organizing.

### Programme Objective:

- To create awareness among faculty members about Outcome Based Education System and institutionalizing of NEP research based guidelines
- To help understand the philosophy and implementation of OBE in teaching-learning system and assessment of students
- To use various innovative teaching learning methods to improve student engagement and learning outcomes.
- Conveniently Bloom's Taxonomy provides lots of related verbs that provide a helpful way of education to plan lessons. Verb tables have been created to align with each of these levels.

### FIVE DAY FACULTY DEVELOPMENT PROGRAMME

On

"OUTCOME BASED EDUCATION,  
BLOOM'S TAXONOMY"

April 22<sup>nd</sup> To 26<sup>th</sup>, 2019

ORGANIZED BY

DEPARTMENT OF  
COMPUTER SCIENCE AND  
ENGINEERING

BAPATLA WOMEN'S ENGINEERING  
COLLEGE, BAPATLA

(Approved by AICTE-New Delhi, Affiliated to  
Acharya Nagarjuna University)

### CHIEF PATRONS

**SRI. MUPPALANENI SESHAGIRI RAO**  
President, Bapatla Education Society  
**SRI. P. PAPA RAO**  
Vice President-I, Bapatla Education Society  
**SRI. MANAM NAGESWARA RAO**  
Secretary, Bapatla Education Society  
**SRI. P. BHAVANNARAYANA CHOWDARY**  
Joint Secretary & Correspondent, Bapatla Education Society  
**SRI. CH. VENKAIAH**  
Treasurer, Bapatla Education Society

### PATRON

N. Kavitha In charge Principal

### Organization Committee

Mrs. G. Venkateswari Assistant Professor  
Ms. M. Anitha Assistant Professor  
Ms. P. Nava Bhamu Assistant Professor

### Advisory Committee

Ms. Sk. Shahana Assistant Professor  
Ms. P. Neelima Assistant Professor  
Ms. Sk. Shahina Assistant Professor  
Ms. M. Chaitanya Kumari Assistant Professor  
Ms. D. Tejaswi Assistant Professor

### CO-ORDINATOR

Mrs. B. Haritha  
Assistant Professor  
E-Mail: harithabwec@gmail.com  
Mobile: +918639749827

### REGISTRATION DETAILS

NO  
REGISTRATION FEE

- ❖ Spot registration Available
- ❖ Last date for registration is April 15<sup>th</sup> 2019

### HOW TO APPLY

Faculty can register through registration form in the prescribed proforma duly signed by the Head of the Institution.

### HOW TO REACH

The college is located in Bapatla Town. It is having the transportation facility By bus/ Train.

### REGISTRATION FORM

Five days Faculty Development Programme  
On

### **Objective:**

The outcome based education is a target-oriented education, imparting and achieving desired results at the end. This Faculty Development Programme is specifically designed to discuss, deliberate and come up with outcome based teaching-learning methods (OBE). The FDP will help the academicians in the restructuring of curriculum, pedagogy and assessment practices for the achievement of high-order learning outcomes. Hence, this is an excellent opportunity for early-career academicians and doctoral students to evolve and learn different teaching styles and assessments methods that help students in achieving their desired targets. Bloom's Taxonomy is a set of three hierarchical models used to classify educational learning objectives into levels of complexity and specificity. The three lists cover the learning objectives in cognitive, affective and sensory domains.

## PROGRAM REPORT

**Name of the Program:** One Day Training Program on "BASIC COMPUTER SKILLS"

**Organized By:** Department of Computer Science and Engineering

**Date:** 29.03.2019

**Resource Person:** P. Nava Bhanu

Assistant Professor, Department of CSE

Bapatla Women's Engineering College

bhanu8flery@gmail.com

+918686887045

### **Objective:**

Basic computer skills refer to the ability to use computers and related technology to perform fundamental tasks. Using these skills, you can make presentations, work with application software, access databases, communicate with team members and create beautiful designs. The type of computer skills you use depends on your job role and industry. The course guides them to use computer system and the internet in a secure and effective manner. This course primarily focuses on the practical approach rather than a theoretical one and is designed for absolute beginners with little or no prior knowledge of computer systems.

Proficiency with computer skills and technology is increasingly important in today's workplace. As we depend more on software, it's necessary to have a training program that helps employees develop basic computer skills and stay updated for new technologies.
